WEDNESDAY MORNING, JAN 15 1862

From the East and San Francisco

The *Brother Jonathan* arrived last night bringing St Louis dates including the 2d of January and San Francisco papers as late as the 7th The leading items of news may be thus stated Government have given up Sh dell and Mason and they have gone to Eng land; England is sending troops to Canada, the filling up of Charleston harbor is said to be complained of by England, great destruc tion of rebel stores at Nashville by fire nu merous prisoners exchanged; suicide of Gen St. George Cooke, France proposes a media tion, Mexico invaded, Spanish fleet take possession of Vera Cruz, return to Mexico of Santa Anna, Sigel resigned, the Missis sippi expedition, more rebel prisoners a battle and federal victory in Missouri Price and his forces putting off for the South &c

The most important item of news is the giving up of Slidell and Mason This has probably been done at the suggestion of the French government, of which Gen Scott was the bearer The position of the matter seems to be this the British Government have al ways claimed the right of searching neutral vessels for enemies and contraband of war Her writers on the laws of nations have sus tained her in these acts The United States have claimed that the flag should cover prop erty on the high seas and had committed itself against the right of search claimed by England, and even went to war wit that nation to sustain this posit on All the leading powers of Europe, with the except on stated, England have sustained the same views with the United States The French Emperor, one of the shrewdest men living, saw the state of things as they existed, and anxious for the breaking down of this English claim, advises the giving up of Slidell and Mason [We know their errand to England and the propo ition they bear to that Govern ment, to give up the Southern States to the Government of England] Thes facts exist ing, the surrender of the two rebels may be regarded as a brilliant stroke of diplomacy, and in a quarrel with England may bring France to act in our behalf While we sup pose that these views are correct, it is just to say that we have not details to enable us to speak positively on the subject, but we have confidence in the Government, which pos sesses all knowledge in the case, that it has done right. The next arrival will bring us further details

Our news is eight days later than previous ly received We have no news from our Southern expedition, but the general weak ening of the rebels seems to be certain

ESCAPED FROM THE REBEL ARMY —Mr Gans cousin to Henry Gans of the Multnomah Market, arrived here on the *Brother Jonathan* He informs us that he latterly was a resident of Memphis, Tennessee, and had been im pressed into the service of the Confederate army, but succeeded in escaping when near the Kentucky line He says there are thou sands of men impressed into the rebel service but having all their property at stake in the rebel States, they are compelled to fight to support the secession leaders, or lose all He also says that a man named Constantine, form erly in the employ of Mr Dekum, in this city was killed in battle while in the ranks of the rebels

HUZZA FOR CORVALLIS!—At the election in Corvallis on the 6th inst for city officers, the Union ticket was elected by handsome majo rities. N H Lincoln led for the whole Union ticket

We have Victoria papers of the 11th There was fine sleighing at Victoria The present was regarded as the hardest winte since the gold discovery

Latest News from the East.

Dates to January 2d.

The *Brother Jonathan* reached St Helens afternoon bringing to Victoria The *Cochita* brought up the passengers and mails

We are indebted to Wells, Fargo & C and Adams & Co for files of papers and to the purser for the following summaries

CITY.

MINERS COMP —A large number of miners came up in the *Brother Jonathan* They will remain here until the ground for moving to the mines in the spring They were in San Francisco since to welcome them no more to remain here, and thus they can be among the first to lead in the mines

RECORDER'S COURT —Only one drunk was brought before the recorder yesterday, who was fined $5 and costs for getting drunk and violating ordinance No 10

PERSONAL —We were pleased to meet Mr A S Gould, an old acquaintance from and for a long time connected with the Columbian press. He is out on a tour as correspondent for the *Alta California* and will visit and write about our Northern mines. He is a true gentleman and fine writer.

TO PASSENGERS FOR SAN FRANCISCO —It will be seen by the steamer's notice that the passengers for the *Brother Jonathan* will leave for St Helens at 11 o'clock this morning, on the steamer *Julia*

PERSONAL —Mr Buchwalter the newly appointed editor of the *Oregonian* paid us a visit last evening We are pleased to make the acquaintance of Mr Buchwalter, and wish him every success in his new and honorable field of labor"

The above very flattering notice in yesterday's issue of the *Advertiser*, requires a short reply at my hand Being well convinced of the fact that when I blew Joe Bell, George Long, or any other of the numerous editors of that paper who are in the habit of daily "dishing up" a message for the benefit of some aspirant for office, penned the notice in question, knew better the relation I occupy in the editorial department of the *Oregonian* than many personal friends of mine do Therefore I am inclined to think the "boys" had some other motive in view than a mere compliment, and knew at the same time that they were not informing the public correctly In explanation, I would state that some months since I was employed by Gen Curry of the *Advertiser*, and the publisher of the *Oregonian*, as local news reporter for their respective papers, and thinking that in connection with the business of book binding which I carry on in Alder street, I would be able to make an honorable living, I faithfully fulfilled my engagement, until not long ago I quit reporting for the *Advertiser*, for it is as well known to the gentlemen who penned the above lines, but I still retained my position in the *Oregonian* also for reasons well known to the gentlemen who penned the above lines Nothing, any desire to be as famous as the editor of the *Advertiser* and consort with the humble position I occupy in this city I hereby deny the charge of telling the *Oregonian*. Still if any one of the many editors I have referred to wish to know who controls the columns of this paper, he can probably be accommodated by applying to the publisher

A BUCHWALTER

APPRECIATION OF MERIT —J C Ainsworth, Esq President of the Oregon Steam Navigation Company, elected and purchased on New Year's Day to the present Messrs Barrett & Sherwood fine engraved chronometer watches for each with a massive gold snuff box and highly polished curious quartz, which article we commend as presents to certain gentlemen in the Corporation employ. The snuff box is of oval shape and of exquisite workmanship It is elegantly engraved, and presents the description "Presented to the by W Murray Cashier by the Oregon Steam Navigation Company January 1 1862 Of these the first is for Capt John Wolf Master of the steamer *Julia*; the second for Capt John McNulty of the steamer *Hassalo*, the third for Capt L Baughman, of the steamer *Lenore* and the fourth, for Capt Ed Wakefield, of the steamer *Col Wright* The cases of each watch is engraved the name of the party to whom it is to be given by whom presented and the date. The total cost of these elegant gifts was something over one thousand dollars a fitting testimonial of the Oregon Company's liberality, as well as of their disposition to acknowledge and encourage merit of those who have long and faithfully served them The souvenirs will be handed to Portland to-day, by the *Brother Jonathan* —*Alt*

The Medical and Surgical Institute of DR S J CLARK, which is devoted exclusively to the treatment of Chronic Diseases, has been established in this city for the past three years, and has received the highest encomiums from the press and people for the success which has attended its efforts in this department of the healing art Many others equally bad, have been restored to perfect health by the same treatment which has effected these cures Consultation free, at the Institute, No 4 Battery street, between Clay and Sacramento, from 9 A M to 4 P M Dr Clark has been a practitioner of medicine for twenty years, and is a graduate of the Medical College of Geneva, New York, and has been engaged in the treatment of Chronic Diseases for the last ten years Dr Clark has been a member of the Medical Society of the State of New York for the last twelve years, and has received a certificate of membership from the Medical Society of California, which is hung up in his office, and can be seen by all who call Dr Clark has been a surgeon in the United States Army for the last three years, and has had an extensive practice in the hospitals of New York, Washington, and Fortress Monroe, and has had the charge of the Medical Department of the Hospital at Fortress Monroe, and has received a certificate of his skill and ability from the Medical Board of Examiners at that place, which is hung up in his office, and can be seen by all who call Dr Clark

SUFFERINGS OF UNION MEN IN NORTH CAROLINA.—The Rev Mr Conway, Chaplain of the New York Ninth, at Hatteras Inlet, writes as follows of the suffering of the poor people there

"There are seven or eight hundred people here, who are occupying a stock of land stretching from Hatteras to Ocean Inlet a distance of 70 miles The people are to church attracted my attention by their very shabby appearance Some of the men were without shoes some without hats and the garments the women The very best of Homespun and old garments ly prevail The people are in the largest extreme Some have different suits of the same kind and others but one suit and that a mass of rags and patches Some have plenty of money and others not a cent Nor have all the wealthy money with which to buy It is hard to discriminate as to the position of the followers of Mallonell and Stark on this coast Would the Union, and yet tolerate its destruction? Such might, with equal consistency, look upon a house consumed by the flames and say, "I vindicate the house, it has a right to exist, and yet I tolerate the incendiaries who set fire to it" The fire-bell firemen might offer to extinguish the flames would Courage be denounced and opposed by him The "existing democratic party" and its fearful of peace mongers call the rioters, are mad —*Sacramento Union*

South Carolina, even ago was supposed by the rebels to be in a fair way of becoming to the South what New York is to the North Now, her people are considering the property of burning up the city!

Commercial and Financial.

We have San Francisco market reports including Jan 6 The *Alta* says that the bad state of the weather and the deplorable condition of the roads had combined to arrest the trade of the city jobbers There was little inquiry for goods in first hands

A New York correspondent, under date of December 9th says that the trade was dull but that there were expecting to see a large amount of imports He thinks several

We notice no quotations for [illegible] *Alta* Flour is $7 per 100 lbs Wheat, extra fine, $2 10 per [illegible]
